

LUXE

market-collection.com

APPLICATIONS

- Interior walls
 - Exteriors (including freeze thaw areas)
 - Pools (except in freeze thaw areas)
 - Showers (including steam)
-

HANDCRAFTED CHARACTERISTICS

Luxe is made from a stoneware body. The glass has been encapsulated and fused to the clay.

INSTALLATION & MAINTENANCE

- It is very important to use a thin diamond blade to cut Luxe tiles, not a tile/brick blade.
 - Use Crazy Glue on cut line to help hold in glass freed from cut.
 - After installation, surrounding grout will hold glass on cut edges.
- Seal tile prior to grouting with a sealer or grout release. This will ease the clean-up process at time of grouting.
 - It is very important to immediately and continually clean excess grout from the surface as work progresses. Rinse thoroughly with clean water, changing water frequently.

IMPORTANT!

We recommend wet cutting or the score and snap method during the installation process. Do not dry cut using power tools during the installation process. Improper installation techniques could expose installer to harmful dust.
